DAILY NEVADA STATE JOURNAL

C. POWNING, EDITOR AND PROPRIETOR

WEDNESDAY.. ..... MARCH 27, 1878.

THE DAILY JOURNAL

Is the best daily paper published on the line of the Central Pacific Railroad, east of Sacramento, and having a general circulation throughout the State, it is especially valuable as an advertising medium.

THE DAILY AND WEEKLY JOURNAL

Have a combined circulation larger than that of any interior journal of Nevada, excepting those of the Comstock.

NEWS OF THE MORNING.

Doorkeeper Polk, it is said, is making a fight for retention.

A fire in Philadelphia Monday night destroyed $800,000 worth of property.

The President is not affected by the speech of Senator Howe, but will let the people judge him.

The new German iron-clad gunboats have very venomous names—Wasp, Viper, Bee, Scorpion, Gnat.

Captain Bogardus, the famous wing shot sails for Europe on June 1st. He has challenged all Europe as a pigeon shooter.

A prize fight at Mechanicsville, Pa., between James Totten and Charles Morrison, resulted in the victory of the latter on the 27th round.

Senator Christiancy, from the Judiciary Committee, said he was directed by the majority of the committee to report back the bill to repeal the bankrupt law.

The Jesuits are negotiating for the purchase of a palace in Rome with a view of removing their headquarters thither. The Pope holds aloft from the movments.

The schooner J. P. Haven, which sailed on the 20th instant for Fort Ross, sprung a leak and sunk on the 23d, ten miles off Tomales. The crew saved themselves and returned to San Francisco on the tug Millen Griffith.

Duke Nichols, with a suite of twenty, will proceed to-day in the Imperial Yatch Livadia, to visit the Sultan, who will immediately return the visit at once of the palaces placed at the Grand Duke's disposal, or on board the Livadia.

In a letter to the New York *Tribune* yesterday the veteran Thurlow Weed closes as follows: "If a young man in whose welfare I take an interest should consult me about office-holding, I should tell him it was one of the worst ways of commencing life."

Advices from Cape Town say there is every prospect of an early close of the war. The Kaffres say they are tired of it. Sandilli, Chief of the Gaikas, is reported to be asking for mercy. A combined movement has been made for his capture, and a decisive fight is daily expected.

In the House Monday Springer's motion to suspend the rules and pass the bill to authorize the coinage of gold and silver on the same terms and to permit the deposit thereof for the same purposes, was rejected—yeas 140, nays 102—not a two-thirds vote in the affirmative.

In every case where the classification of Consuls has been changed by the House of Representatives, the Senate Committee restores them them to the existing grades and salaries, and the restoration of the following Consulships, which were dropped in 1876, is provided for, the salary in each case being fixed at $1,000 per annum: Southampton, Stettin, Nantes, Valencia, Milan, Venice, Moranham, Santa Cruz and Swatow. The salaries of Envoys Extraordinary and Ministers Plenepotentiary to Great Britain, France, Germany and Russia are provided for at $17,500 each, those to Spain, Austria, Italy, Brazil, Mexico and Japan at $12,000 each, and those to Chili and Peru at $10,000 each, instead of $15,000, $10,000 and $8,000 respectively as reduced by the House.

THERE is little probability now, on account of England's demands, that the proposed European congress will meet, and war between England and Russia is not improbable.

TALK about Chinese cheap labor! Massachusetts make tea-chests and sends them to China at a less cost than John Chinamen himself can manufacture them.

OSMAN PASHA has been released and has arrived in Constaneinople, where the Sultan publicly thanked him for his heroic defense of Plevna.

GENERAL NOTES.

A bill is now before Congress, which provides for a continuance of the coinage of trade dollars to the amount of $9,000,000 per annum, and expressly restricting their use to export purposes.

Men who are over forty-five years of age are exempt from draft in time of war. Also, persons blind in one eye, deaf, and otherwise physically unfitted for the active and arduous duties of a campaign.

Congressman Stephens, of Georgia, proposes to get rid of the three cent pieces, nickel and silver; also of the silver five cent piece. Both are a nuisance and the whole country will be glad to see them wiped out of existence.

Norway proposes to scientifically explore the sea between the Faroe Islands and that country, and as the Norway people navigated that body of water for 1,000 years they propose to call it the Norwegian Sea. If anybody has a prior claim let him speak now or forever after hold his peace.

Capt. Boyton recently arrived at Lisbon on his swim down the Tagus from Toledo—a distance of seven hundred miles. The Geographical Society sent a special steamer to meet him. He was much hurt by numerous rocks, and said he never encountered a more dangerous or difficult river.

The Paris Rothschilds, who are all bankers, are said to work as hard as if they were beginning their fortune. They observe their office hours as punctually as does the poorest clerk. There is a popular belief that they they hope to execute the dream of the rebuilding of the temple and the city of Jerusalem.

The Indian famine has cost the British Government $46,250,000, and it is proposed by the authorities hereafter to regard these visitations as regularly-recurring and not as exceptional events and to make preparation for them by laying up $7,500,000 a year so as to meet the scourge when it comes without unduly disturbing the revenue.

To procure copyright of a play or book one must send the printed title or title-page to the Librarian of Congress, accompanied by fee, and state in accompanying letter his desire to copyright the same. The fee for copyrighting is fifty cents. If the person desires a certificate of copyright, the fee will be, altogether one dollar. Address, simply, Librarian of Congress, Washington, D. C.

The widow of the late President Lincoln is said to be living a secluded life in an interior town in France, and declines to return to the United States, lest she should again be placed in a lunatic asylum. She still indulges, to a moderate extent, in her propensity for buying things for which she has no use, and filling closets with articles wholly unnecessary.

A strong movement is now being made to have Emery removed from the Governorship of Utah and to have General P. E. Connor appointed to that position. Emery, it is claimed by the Gentiles, has been captured by the Mormons and they want no more of him. General Connor, if he could be induced to accept, would be the right man for the place.

"X. X." is informed that the battle of Pittsburg Landing and Shiloh was one and the same. In some histories it is called Shiloh, and in others Pittsburg Landing. Shiloh gets its name from a little log church situated about two and a half miles from the Landing, and there was fighting all around the church and over the plateau on which it is situated, as well as the landing. Indeed, the heaviest fighting occurred in Shiloh. The landing was simply a base for receiving supplies by river.

THE Secretary of the Treasury Monday announced the appointment of the following persons as Government Directors of the Union Pacific Railroad: Charles F. Adams, Jr. of Massachusetts, Ralph P. Buckland of Ohio, G. W. Smyth of Iowa, Daniel Chadwick of Connecticut, and C. C. Housel of Nebraska.

A WASHINGTON dispatch of Monday says that no attempt will be made to reopen the Corbin case until Sharon takes his seat, which he is expected to do within two weeks. Conover is said now to be ready to vote to unseat Hamburg Butler, and, if so, Butler will lose his seat.

WATER RIGHTS.

Senator Booth of California has introduced the following bill in the Senate: "Be it enacted, etc., That the fresh water of all rivers and streams with a flow of more than 50,000 gallons per day, and of all lakes and ponds of more than one acre in area upon the public lands of the United States, are hereby reserved, granted and dedicated to and for the free, common use of the inhabitants of the State or Territory where the same are situated, for drinking, washing and the ordinary purposes of sustaining life, and the remainder, after said purposes are reserved, for irrigation and manufacturing in their respective order; and private property or ownership founded on grant, custom or otherwise shall never be created or allowed in such water to supercede or prevail against said common rights of the inhabitants, subject, however, to such reasonable regulations as a State or Territory shall make to protect the first appropriation of water to a useful or beneficial purpose so long as the same as actually continued against any subsequent appropriation.

Section 2. Hereafter all surveys of public lands and all grants of the same to promote use or ownership shall be made to conform and provide for the reservation and dedication made in this Act, and all patents shall be made subject thereto by express terms."

The bill was referred to the Public Lands Committee, of which Booth is a member.

THE quality of mercy is not strained—it droppeth as the gentle dew from heaven. Louis Napoleon, the Morrisania thief, had sixty years lopped from his sentence through the mercy of the gentle Hackett, of New York. Mercy is twice blessed, it blesseth him that gives and him that takes—the sentence. And yet the thief with the celebrated name did not seem to appreciate the kindness tendered him. Hackett explained to the prisoner that he had the power to sentence him for eighty years, but he reduced the time in State prison to a mere span of twenty years. Napoleon stole about $200 worth—Gilman stole over $30,000; and yet the former got twenty years and the latter five, together with Hackett's tears.

A writing telephone is the next step in advance. Abbe Libord is its inventor. He proposes to separate the recipient, and to fix one of the conducting wires to an iron plate and the other to a stylus slightly rounded at the extremity. Between the plate and the point which are intended to complete the circuit, a paper band, properly prepared, is caused to move when the telephone is in operation, and the black marks made upon the paper will denote what the sound at the transmitting end conveys. It is supposed the telephone can be so arranged that it will record at one end what is spoken at the other, whether there is any one in the receiving room or not, and the absent party can read the message on his return.

IN blue blooded Massachusetts there is a law which is a disgrace to civilization and humanity. The Code says that no citizen who has accepted alms from the public charitable institutions during the year preceding the election shall vote. Which is the same as to say in so many words: Poverty is a crime. There are a good many such laws in Eastern States, some of them dead letters, and some of them enforced, which should be erased forever. They are legacies from the old Puritans, a class of fanatics who have been praised but who deserve much censure. Their idea of liberty was to think and act as they pleased and torture everybody who did not think and act with them.

WESTERN UNION TELEGRAPH.—The net profits of the Western Union Telegraph Co. for the quarter ending Dec. 31, 1877, were $736,224, which added to a previous surplus, gave a total of $827,090. From this sum a dividend of 1¼ per cent. amounting to $525,931, was paid on the 15th of Jan., besides the usual appropriations for bonded debt, sinking fund, construction account, etc. The surplus carried forward from the above was $88,200. At a meeting held on the 13th inst., a statement was made to the Directors, partly from estimates, showing the net profits for the quarterly dividend was declared, payable on the 15th of April.

IT is reported that the women and children massacred by the Turks in Thessaly number many thousands.

TUSCARORA MINING REEIVW.

[Times-Review, 23d.]

Revenue.

Messrs. J. M. Banfield & Co. are busily engaged in the development of the Revenue ground, located near the Independence mill, with very flattering prospects. Starting with a narrow seam of quartz at the surface, they have followed it down to a depth of 25 feet, at which point it is fully two feet wide and shows some rich streaks of mineral. As work progresses we hope to chronicle their success.

Young America.

North drift west ledge, 300-foot level is in 70 feet, showing a ledge of pay ore from two to four feet in width, assaying from $40 to $100 per ton North winze 200 foot level down 60 feet alongside the ledge, samples from which assay from $100 to $175 per ton. Are making preparations to take out ore. Will start the mill on Monday.

Grand Prize.

No particular change to report in the appearance of the mine except winze No. 2 west, which shows great improvement in the character of ore. Crossent is now in 50 feet, and expect to cut the ledge in a distance of 20 feet further. Machinery has been erected over the new shaft, and work will be driven ahead rapidly.

Hussey, Cornucopia.

Extracting from 10 to 12 tons of good ore daily, and when the 140 foot level winze is connected with the 230, which will be in a few days, ore will then be extracted from the rich chimney encountered in the winze. The mill is now crushing about 10 tons daily and will produce about $12,000 in bullion weekly.

DeFrees.

The improvement mentioned in the 113-foot level drift north, last week, has continued, and some good ore for the past two days has been encountered. But little change in south drift, 113 foot level, to note; some improvement in the north drift 210 foot level; 310 foot level drift south is without change.

Silver Prize.

The prospect drifts are being run in favorable ground. The ore vein in the upraise continues strong and will furnish a good supply of ore when stoping commences. The ore that is being hoisted and added to the first-class dump is good.

Diana.

At the Diana the hoisting works building is nearly completed, and the boiler and engine are expected to arrive to-day or to-morrow. The shaft is down 100 feet, and further sinking has been suspended pending the erection of machinery.

Pawnee.

South drift in 73 feet, the face showing a tale formation with small bunches and stringers of crystalized quartz. In the bottom of the face there is evidence of a change of formation. Work is progressing smoothly.

Navajo.

Are running with an increased force of men. Mine looking well at all points. Independence mill and roasters are running on Navajo ore, reducing 13 tons daily.

Argenta.

Work has been resumed on the 250-foot level; are running an upraise in the ore body to the 150-foot level, preparatory to stoping.

Commonwealth Con.

Are driving down the A. A. shaft with night and day shifts; shaft in favorable ground; good progress being made.

Independence.

North drift in 72 feet; are crosscutting east for the vein. South drift in 65 feet.

Hornet.

Are still crosscutting to the west towards the ledge; are in 80 feet.

A MEMBER OF THE NEVADA LEGISLATURE ACCUSED OF PERJURY.—The San Francisco *Alta* of Sunday last has the annexed item:

Arthur W. Atkinson was arrested yesterday, on complaint of Selden Hetzel, who charges him with committing perjury, by swearing, before O. T. Shuck, Notary Public, that he had been a resident of the State of California for six months preceding the making of the affidavit (March 15th;) whereas, he had been a resident of Eureka, Nevada, until the 4th of March, and a member of the Legislature of that State since January, 1877. The alleged false swearing was material in order to institute an action for divorce against Mattie Atkinson.

WONDERS will never cease. On Sunday last a negro living near Richmond committed suicide because he was in love. His name was Samuel Valentine, but his amorette declined to have him for her valentine and he flung himself before a flying express train on the Richmond & Petersburg Railroad, and was crushed to death. This is the first instance of a negro committing suicide for love, and one of the few instances of a negro committing suicide at all.

THERE are eight mints in this country, located as follows: Philadelphia, Charlotte, North Carolina, Dahlonega, Georgia, San Francisco, Carson City, Denver, Dalles City, Oregon, and New Orleans. Some of them coin only gold, and several have not for some years been in operation.

The famous sea lions of Seal Rock, near San Francisco, have been presented to the Legislature as a nuisance demanding abatement. The Fish Commissioners declare that unless salmon be protected there will not be one salmon in the Sacramento river ten years hence. The seals devour 3,500,000 fish every year, and are themselves protected by a law which makes it penal to kill them.

THE school boys of London, Ontario, evidently take an interest in war news. The *Advertiser* says that one of the most popular games there is entitled "Turks and Rooshians." MISCELLANEOUS.

SWORN EVIDENCE.

The following Cure is probably the most remarkable ever effected by any medical preparation for the treatment of Catarrh:

Gentlemen,—I hereby certify that I have had Catarrh for ten years, and for the last six years have been a terrible sufferer. I was rendered partially deaf, had buzzing in the head, pains across the temple, dizzy spells, weak and painful eyes, swollen and ulcerated tonsils, hard and constant cough, severe pain across the chest, and every indication of consumption. My breath reached all the time. The matter accumulated so rapidly in my head and throat that I could not keep them free. Frequently at night I would spring out of bed, it seemed to me, at the point of suffocation. I would then have recourse to every means in my power to dislodge the obstructions from my throat and head before being able to sleep again. For a period of six years my tonsils were ulcerated and so much inflamed that I could with difficulty swallow. I finally consulted an eminent surgeon in regard to an operation on them, but at his request postponed it. The constant inflammation and ulceration in my throat caused by the profuse matter dropping down at times from the head, produced hollowness in my breath, which became offensively disagreeable. I was troubled frequently, —a deep, hard cough. Meanwhile my system began to show the effects of disease, so that I lost flesh, grew pale, and showed every symptom of an early death by consumption. When matters had reached this stage, or about six months ago, I began the use of SANFORD'S RADICAL CURE FOR CATARRH. After using the first bottle I began to improve rapidly. The first dose seemed to clear my head as I had not known it to be for years. It seemed gradually to arrest the discharges. *It stopped my cough in three days.* By using it as a gargle it soon reduced the inflammation and swelling in my tonsils, so that they soon ceased to trouble me. The soreness across my chest disappeared, the ulcerations in my head healed, my sense of hearing and of hearing were completely restored, and every symptom of disease that had reduced me to the verge of the grave disappeared by the use of SANFORD'S RADICAL CURE FOR CATARRH.

I have been thus explicit because, as a druggist, I have seen a great deal of suffering from Catarrh, and hope to convince many that this is a great remedy.

I am familiar with the treatment of Catarrh as practised by the best physicians, and have consulted the most eminent of the profession. I have used every kind of remedy and apparatus that have appeared during a period of six years past, and have, while following their use, taken great care of my general health, but obtained no relief or encouragement from any of them.

COLLINS' VOLTAIC PLASTER

Affords the most grateful relief in all Affections of the Chest and Lungs.

CHRONIC PLEURISY CURED.

MESSRS. WEEKS & POTTER: *Gentlemen.*—Having for many months past suffered with a very lame side, called by my physician Chronic Pleurisy, caused by a former injury and strain, and for which I used many prescriptions and liniments, as well as the so-called rheumatic cures, without the least benefit, my physician recommended one of your COLLINS' VOLTAIC PLASTERS, which, to my great surprise, relieved the pain and soreness almost immediately, and I have been able to attend to my household affairs ever since with perfect ease and comfort, whereas, before the application of your invaluable Plaster, I was scarcely able to do anything. I consider them inestimable, and shall with pleasure recommend the same to the afflicted. Yours respectfully, MRS. FRANCES HARRIMAN.

ORLAND, Me., April 21, 1876.

There is no medical or protective appliance that will prove so grateful and effective in Tickling Coughs, Irritation and Soreness of the Chest and Lungs. We believe them capable of preventing serious diseases of these organs.

PRICE, 25 CENTS.

Do not confound these Plasters with the ordinary Plasters of the day, that by comparison are absolutely worthless.

Be careful to obtain COLLINS' VOLTAIC PLASTER, a combination of Electric or Voltaic Plates with a highly Medicated Plaster, as seen in the above cut. Sold by all Wholesale and Retail Druggists throughout the United States and Canadas, and by WEEKS & POTTER, Proprietors, Boston, Mass.

Leg Broken.

The son of James Miller who resides in Sierra Valley, had the misfortune to be thrown from a horse last Thursday and sustained a very severe fracture in one of his legs. The limb was attended to properly at once and at latest accounts he is doing very well.

LORD MACAULAY made it a rule to pay all bills within twenty-four hours. Of course that means twenty-four hours after he got the money to pay them with. The rule is an excellent one, and should be imitated.

ALL the snow has been removed from the Geiger Grade, and that highway is now in passable condition to Steamboat Springs.

THE Postoffice at Peavine has been discontinued. Reno is the nearest office to that community now.

THE sale of delinquent stock of the Crown Prince Mining Co. has been postponed until April 10th.

U. S. MARSHAL ASH was in town yesterday summoning Jurors for the next term of Court.

OPHIR has levied an assessment of $1. The boys will wade into their pockets once again.

HAVE you registered for the School election yet? Next Tuesday is the last day of grace.

CHARLES COURTOIS left yesterday morning for Bodie. He will return shortly.

FIVE cars of emigrants came westward yesterday.

THERE are thirteen prisoners in the county jail.

Strange Proceedings.

A large procession of Indians might have been seen yesterday wending their lonely march in single file up one of our streets in the direction of the cemetery on the hill. In the lead was an Indian pony, on which was mounted a small boy and the squaw who was formerly the mate of the Indian who was murdered last Saturday night. The horse was led by an Indian medicine man, and following behind was a large number of squaws, all of whom were pouring forth most hideous noises They marched directly to the place where the remains of the murderer man were buried and proceeded to dig up the body, after the accomplishment of which they opened the coffin, took the body out, placed it in the grave, and after putting the coffin on top of the body, again filled the grave. They then proceeded to perform a few burial rites, after the manner of the ancient aborigines. At the conclusion of this very strange proceeding they dispersed in every direction, each retiring to their respective wigwams. It is indeed strange what peculiar superstitions these Indians believe.

Trial Jurors.

The following Trial Jurors have been drawn for the April term of Court: John Reed, Frank Knickerbocker, Thos. Donahue, J. W. Denning, J. O. Gregory, R. H. Leigh, J. P. Richards, Peter Thomas, Garrett Fealey, Geo. Harrington, James Sullivan, Jas. Manns, B. C. Eppersen, John H. Morton, Geo. Deremer, Jas. W. Riley, David Young, B. M. Lovejoy, Charles Vogle, S. D. Farmon, Geo. Jenkins, Geo. E Farrington, G. H. Uber, A. Raphael, John Larcombe, Jr., John Cooper, Jas. Hogle, Wm. Violet, J. N. Pine, Spiro Frankovich, Henry Ward, N. W. Bailey, Jas. Barston, N. Langfield, R. N. Stiles, Clarence Lemory, Robert H. Wright, E. B. Hancock, Thos. Yellop, R. H. Williams, O. C. Ross, A. F. McGregory, Louis Krahmer, Isaiah Ashcraft, Wm. M. Bunden, G B. Stiles, David D. Provost, G. R. Hutchinson, Elias Owens, W. A. Morrison.

Meat Shipping Association.

We visited the slaughter house yesterday in quest of an item, and watched the operations from the killing of the beef to its being dressed ready for the refrigerator. It is quite interesting to watch the proceedings. The animal is run into a small corral, and a man climbs up to the top and with a long harpoon sticks it back of the neck. It falls dead and does but little kicking. It is then hauled in, and skilled butchers fall to work and in a short time the beef is already for market. Mr. Kramer, the foreman of the works, knows his business thoroughly and has everything running like clock work. Nothing is wasted. Everything is put to use; what cannot be utilized in some better way is fed to hogs. They are killing from 35 to 40 cattle a day, or about ten carloads a week. The enterprise is no longer a venture—it is a certain success.

Grand Jurors.

The following are the gentlemen selected as the next Grand Jury which meets on Monday next: A. H. Manning, H. H. Beck, Nels. Hammond, Alvaro Evans, M. C. Lake, L. L. Crocket, J. L. McFarlin, Henry Toombs, C. T. Bender, Jas. H. Kinkead, Geo. Andrews, E. Morrill, A. A. Longley, John Boynton, Joseph Frey, Geo. Smith, Jr., John Wright, H. Weston, H. Stephens, Wm. Donaldson, M. Raphael, J. P. Foulks, Thos. Norcross, A. J. Hatch.

Cupola Furnace.

SUPT. JONES, of the Jones & Kinkead, reports the mine looking well. They began yesterday the construction of a cupola furnace, which is in use in various parts of this State. J. L. McFarlin is to construct the iron work. This, in conjunction with the Schieveley furnace, is to be tried as an experiment. Some of these experiments will prove a success yet, and a huge fortune awaits the discoverer.

The Concert.

Not a very large number assembled at the Methodist Church last night on the occasion of the concert. Several pieces were very fine, particularly the quartette "Annie Snow." The little folks acquitted themselves with credit.

THE ladies of the Baptist Church will give a social at the Church this evening. There will be music, recitations, and old fashioned baked pork and beans and brown bread. All are invited and a good time may be expected.

China Row.

Rye Patch was the scene of some lively shooting among several Chinese on Monday last. As near as we could learn four Mongolians had a contract to do a certain piece of work. Another child of the sun succeeded in getting the work away from them, which was cause enough for them to go to war. The four went for the single man and emptied about twenty shots at him with no effect whatever. The solitary one, however, returned the shooting, sending five shots into their ranks, one of which hit a John in the side, but a leather money belt stopped the force of the bullet and but a slight wound was received. All was quiet at last advices.

Hallard's Exposure of Magic.

To-morrow evening at the Academy of Music, Prof. Hallard will give an exhibition of his skill in the exposure of the tricks of magicians, and will make plain all their so-called wonderful tricks. So simple does he make them that a child can understand and perform them. The London sensation, the fairy bird in the magic cage, the handcuff and shackle mystery, the secret of getting out of handcuffs, Foster's mind reading and second sight and Houdon's cabinet of ghosts, will be among the tricks exposed. They offer $5,000 for any test in magic they can not expose. General admission 50 cents, reserved seats 25 cents extra—secured at the hall to-morrow from 10 to 2 o'clock.

Lyceum.

A large audience was in attendance last night at the Court House listening to the eloquent speeches delivered by Messrs. Leeper, Mann, Burchard, Julien and others. After a somewhat lengthy discussion it was decided to lay the subject on the table for one week, at which time a final vote would be taken on the subject of allowing females the right of the ballot.

THE *Gazette* mistakes our item in regard to the signatures of the Workingmen's roll. Our assertion was that not more than 80 had joined the party for good, but that the great majority had signed it as an expression against the Chinamen. These same ones may vote any ticket and not compromise themselves, if the anti-Chinese plank is not considered. As to the number on the roll, our figures, 325, are about right. Understand us now?

A STRANGE COINCIDENCE.—In the *Tribune* of the 19th of February last appeared a report of the death of Mr. Hugh McGregor, a young man well known in this city. The *Tribune* containing the obituary report reached the home of the deceased in Canada, and to-day, by the kindness of a friend, we received an Ontario paper with the *Tribune's* notice and the following announcement:

McGREGOR—At Athol, Glengarry, Ont., on the 19th of February last, Bella, daughter of the late Alexander McGregor.

The sister expires in her Glengarry home on the same day that witnesses the death of her loving brother, far away in the wilds of Nevada.

It is a strange coincidence that brother and sister should die on the same day and thousands of miles apart.—*Carson Tribune*, 23d.

HOME AND HOME SHUTTLE SEWING MACHINE.

JOHNSON, CLARK & COMPANY,

MANUFACTURERS,

17 New Montgomery St, San Francisco, Cal.

The HOME and HOME SHUTTLE Sewing Machines were awarded the highest prize and diploma at the Centennial 1876 and are the Perfection of Mechanism These unequalled machines use a straight Needle the Lock Stitch Self adjusting tension and are adapted to every variety of Sewing, for Family wear from the lightest muslins to the heaviest Cloths and will also sew leather They are especially adapted to the wants of

Tailors, Dressmakers, Seamstresses, Manufacturers of Clothing, Shirts, Skirts, Corsets, Ladies' Boots, Umbrellas, Etc , Etc , Etc

THE HALL TREADLE

Is the greatest improvement ever invented in connection with the sewing machines and we have the sole agents for the Hall Treadle have applied it to our Home Shuttle Sewing Machine sold hereafter on the Pacific Coast without extra charge (Take notice that every other Sewing Machine fitted up with the Hall Treadle costs $12 extra)

The Home and Home Shuttle Sewing Machines with Hall Treadle attached are the lightest running and superior to any machines, and for all practical working purposes,

Simplicity, Strength and Beauty

They are unapproached by any other Machine yet invented

The Hall Treadle will be attached to any other machine if desired. Mr. Jaquish invites all to visit his place and see how it operates.
